# What is RecoveryPro?

- ▶ Customizable online Disaster Recovery Plan planning tool that helps you organize key information and procedures in one place
- ▶ Model plan content and guidance on what information and resources should be documented in your plan
- ▶ Allows management and staff to quickly access the information and begin the process of restoring services in the event of a disaster or other work stoppage incident
- ▶ RecoveryPro's publishing tool lets you compile multiple sections of the plan into one printable document that can be posted in read-only format for managers or staff to view from any internet connection should an incident occur

# Why Use RecoveryPro?

- ▶ NCUA requires all federally insured credit unions to have a written and tested disaster contingency plan
- ▶ Reference and direction for departments, management and staff
- ▶ Critical information is assembled and readily available when you need it most
- ▶ Authorized staff can securely access, view, print and update plan content from any internet connection at any time

# System Features Overview

- ▶ A twelve-chapter Disaster Recovery Plan outline
- ▶ Model plan content and guidance helps with gathering important information for risk assessment, plan scope, emergency procedures, human resources considerations, recovery procedures, public relations, insurance and funding information, key reference and contact information
- ▶ Sample forms that can be downloaded and used to capture important information such as software and hardware inventories, risk analysis, staff and vendor contact information, facilities inventory and more
- ▶ Storage area allows you to upload documents (PDF, Excel, Word, etc.) and post these within RecoveryPro for easy access to procedures, system diagrams, inventory and contact lists, and more.

# Live Walk Through

- ▶ Dashboard and Folders
- ▶ Manual Builder and Plan Sections
- ▶ Plan Editing Tools
- ▶ Plan Management Tools
- ▶ Publishing
- ▶ Library – Sample Forms
- ▶ Storage
- ▶ Administration
- ▶ Questions?
